3. Each team shall bowl 4 games of scotch doubles and will throw out the lowest score of the 4 games.

If the first ball is a strike then the other person shall throw the first ball in the next frame and will continue until another strike is thrown.
5. Handicap shall be based on a combined total of both bowlers averages and a difference of 400. The percentage of handicap shall be at 90%. The total difference shall be given in handicap (bonus) pins each game. If a bowler has no verifiable average, then they shall use a 150 avg. If a team has more than 400 combined for their team, then they shall bowl scratch.
